

# Sexuality Resources

## for Family Members and Direct Care Professionals of People with Intellectual / Developmental Disabilities (I/DD)

Sexuality is an important aspect of every person and encompasses so much of who each person is, yet little is ever discussed or taught to people with I/DD. There may be challenges in educating people with I/DD about sexuality and some myths about their sexuality needs still exist. This resource list is a starting point for family and professional caregivers to learn and become more familiar with sexuality and disabilities. The resources here may also provide information to help better respond to the behaviors and sexuality needs of people with I/DD.

## Sexual Consent Screening

### **Therapists/Behavior Support:**

Shawn McGill, MSW Consulting, Inc. 412-781-3829

<http://shawnmcgillmsw.com/consultation/sexual-consent-screenings/>

A sexual consent screenings is a consultative service provided to both males and females with disabilities who are at least 16 years of age. The intended purpose of a sexual consent screenings is to determine level of knowledge within the five (5) areas of sexual consent.

Those who are typically referred for a sexual consent screening meet one or more of the following criteria:

- The client is sexually active and has the pre-requisite skills needed in order to be evaluated;
- The client has expressed an interest in becoming sexually active and has the pre-requisite verbal skills needed in order to be evaluated;
- The client has been sexually active within the past five (5) years and has the pre-requisite skills;
- The client has been involved in a case in which they may have been a victim of abuse and the team is attempting to determine their knowledge and understanding in the areas of sexual consent.
